The publication of this issue commenced As she was leaving the Harbour this afternoon for the Straits and Calcutta, the Arratoon Apcor met with a slight scoldent which will necessitate her de tention till to-morrow morning. A lighter was lying alongside as aho was getting under weigh, and the lightermen were requested to drop astern, an order which it is alleged they neglected to comply with. The rudder head of the lighter caught . bight of the chain attached to the port anchor of the steamer, and the strain coming upon the chain caused the bridle of the anchor to carry away, allowing the fluke of the anchor to crash through a plate some 12 or 14 feet above the waterline.

MR Freear having got together some thirty

performers of transcendent talent whom ho.

calls the Black, Diamond Ministrels gave an

entertainment of mirth and music, especial-

ly mirth, in the Theatre Royal last night. The Minstrels, whose accomplishments are as varied as the types of manly beauty which they represent, really acquitted themselves with a great deal of credit, and we have not the slightest doubt that, with the experience they gained and the confidence they acquired last night, they will entertainment will be repeated. The first part of the progamme will not suffer in the least if the majority of the 'Diamonds' do not show such a haughty and chilling disperpetrate. The chorus was very good last night and the contingent of the Shropshire's Band, specially blacked for the occasion, performed a good and noble work with their accustomed modesty of demeanour. Mr Freear and Mr South, as 'Tambo' and 'Bones' respectively, got off a number of the usual kind of jokes with s. fair amount of success, in spite of the opposition of a gentleman in the front of the house who appeared to be under the inspression that he was the show and the Minstrels were the audience. Master G. Saver's ballad about a boy's mother was received with marked approval, and Mr South sang tha 'Whistling Coon' with so much success that a momentary doubt seemed to be raised in the mind of the gentleman in the front of the house as to whather he was really the show after all Mr R. F. Lammert warbled The song that reached my heart,' and Messra Freear and King also lifted up their voices in solos. Messrs South and Robinson' sang a comic duet 'All Bad,' in which there were some very pointed local allusions. A stump oration by Mr Vowles convulsed the house. and the same effect was produced by a comic sketch, in which Meases Freear, Vowles and Robinson indulged, and

Blayney were the actors. TO-DAY, the following address was forwarded to Major General Gordon :---

VICTORIA COLLEGE PRIZE DISTRI-BUTION.

B. Penny, R. N., Lieut. W. H. Margesson,

ADDRESS BY H. E. THE GOVERNOR. The annual prize-distribution caremony took place at Victoria College to day, in the College, Hall-H. E. the Governor presiding. There was a large attendance of visitors and among those who occupied seats on the platform were Hon. J. H.

THE HEADMASTER'S REPORT. Dr Bateson Wright, the Headmaster, read his annual report, which is as fol-

1. The total number on the College Roll for the year was 1062; the greatest number present on one day being 852, fas opposed cess of the 700 estimated by the late Dr number of school days 237 shows a gain of highest figure reached since 1880,

3. Attendance. As my remarks on this head last year were misunderstood, as relating quite a new experience, I must explain that though I first drew attention to this point last year the short, school-life of too many of our scholars has always been a matter of regret. Take, for example, at random, the year 1885; out of a total number of 506, there were 205 admissions and 210 departures, i.e. roughly speaking onethird of the scholars was changed, prenatural consequence is that at the end remodelled this hour was aliotted to other of the year we can only present for examination the remaining two-thirds; which has been the average for the last ten years, as a glance at the figures in paragraph 2 of my Reports will testify. Few boys stay more than a year in the highest class, while owing to the higher education new given in the Second and Third Classes, many boys are able to obtain situations without entering the First Class at all.

ago I uttered a note of warning on this subjeot. (Gazette, 1888 p. 159, par. II.) A certain amount of emulation amongst ing a passage to reply to questions and scholars may be healthful, but emulation ainong masters (even in the same school) is This custom, previously in vogue as an prejudicial to the interests of education. Sympathy and affectionate interest are the mainspring of true education. Schoolcompetitions are the only test of success in form and nature of the replies. In the 76% passed. As this is a new departure, be by means of petty jealousies and ineducation, it cannot but be that the quiet higher classes the questions roam widely the success is satisfactory. judicious training of each boy will, in the excitement of contest, be sacrificed to the of the scholars. As evidence of the tho- both Spelling and Writing, much higher side by side and not turn their swords overcome a little their national prejudice working up of a machine to the highest point. of tension. No two schools in the Colony work under the same conditions; I would go further and say that no two years does the same school find itself in precisely similar situation as to advantages or hindraness. The greater success of one year does not transform the more average attainments of succeeding years into failure. This being after-life, the exercise is mechanical, and compounded of Dietation and Memory work. hobby of some sort, and I think if a man much obliged to you all and I congratulate so, all comparisons between schools should be avoided on principle. Every school in the colony is doubtless doing its best to further education, and no man or institution can do more. Let it be granted that all the echople stand upon this common platform of excellence and no particular school on a solitary pinnacle. The successes of one school may one year appear to suggest that it is absolutely the best, but this hasty judgment is checked by the above consideration of varying conditions. 5. Educational Theories.—It is a trite and true saying that an ounce of Practice is worth a ton of Theory. Left in charge of a nephew and niece of tender years, the profound philosopher Herbert Spencer found his Theory of Education impracticable even for College has not ignored the modern teaa few hours. The chief error of Theorists on Education would appear to be relegating to the schoolmaster the influence of parents, and the duty of developing the infantile mind which was assigned by nature to the mother. As regards Victoria College its singular conditions require a system of its own. With boys of 14 to 20 years of age at admission, who only stay in school from four to sir years, the Head Master is unable to adopt ready-made theories of Freebel Raub or other celebrated educationists. whose eveteres partulate a curriculum of 10 to 15 years and a commencement of schoollife about the age of seven.

> HONGKONG AND KOWLOON WHAT AND GODOWN COMPANY. The sixth ordinary annual meeting the Shareholders of this Company was held in the Company's Office, Prays Central, today-Hon. J. J. · The Chairm in said-With your permission, we will take the report and accounts as read. The figures show very clearly what has been done during the year, and think it is only necessary to refer to one or two matters which have contributed to the result put before you. The net profit for the year, you will observe, is \$11,777.68 less than carned in 1891. This is almost entirely accounted for by the fact stated in the report, that notwithstanding a greater number of steamers used the wharves, the dargo received by them w. s 50,000 tons less, which tends forcibly to show the fallacy of assuming that a larger quantity of tonnage entering the port is evidence of increasing trade. Our gross Revenue was \$27.762.83 less than the previous year, and this deficiency. would have been even greater had not the Company increased its receipts from the landing, shipping and transhipping work parried on in the Harbour, the number of steamers so de it with being 43 in excess of 1891. As a natural consequence of the decrease of Imports our revenue from storage has also fallen off, and we cannot look for much improvement in this direction until the trade of the Colony, revives. I regret we have not been able to reduce working expenses, which, including repairs, for the past three years have been 64, 641 and 65 per cent. of our caraings, but this is a matter to which your Directors are giving their earnest attention in the hope of effecting economies without impairing efficiency. The 8 Chinese houses mentioned in the report as having been in 15 per cent net on the money expended. Coming now to profit and loss suspense account you will observe that the value of rolling stock, launches, lighters and other perishable assets, has been written down to the extent of \$27,500, which reduction will, we consider, render it unnecessary to make any similar provision for some time to come. Your Directors have also thought it prudent to write down the book value of the West Point property from \$5.50 to \$4 per foot, which they regard as a safe estimate of its worth

Adjoining ground, handicapped by Crown Rout of \$800 per acre, against this Company's \$348.48, recently brought \$3.50 per foot notwithstanding the stipulation that only one-storied buildings should be procted on it. All financial and legal matters in connection with this property have now been estisfactorily settled, and the Company possesses a valuable asset in the shape of 44,435 sq. ft. of land in one of the most important business centres of the colony. Nothing has yet been decided as to how the land should be utilized, but your Directors hope to be able to deal with t during the current year. You will observe from the Report that we propose to pay a further 3% dividend, thus making 6% los me year, and the account further permits of carrying forward a sum practically the same as that brought forward from the previous account. There is nothing further that it occurs to me to refer to, but before proposing the adoption of the Report I will be glad to answer any questions shareholders may put. No questions were asked, and the report

and accounts were passed on the motion of the Chairman, seconded by Mr Georg. Ho Tung proposed the re-election Directors of Messrs Holliday and Dodwell, and that the appointments of Mesara Jantzen, Kramer and Wood be confirmed. Mr J. M. G. Manuk accorded, and the motion was agreed to.

On the motion of Mr R: C. Wilcox, seconded by Mr Georg, Messrs F. Henderson and T. I. Ross were re-elected auditors. This was all the business.

WRECK OF THE AMERICAN SHIP ROBERT L. BELKNAP. Yesterday, says the Free Press of the Division I (12 Boys). -1, Pun Tze-ling, 31st ult., there arrived in Singapore, ship Robe t L. Belknap, which was wrecked The Robert L. Belknap was a full-rigged ship of 2,869 tons gross and 2,261 net register. She left Kobs on Dec. 30th with a general cargo, bound for New York, 1, Sin king-sau, a watch, Mr Leung Pui- Fine weather was experienced, and good thom. Night coming on, she was hanled W. S. W. at 6 o'clock to make sure o till 4 o'clock in the morning, when she struck on an uncharted rest, of which there was no previous indication, 15 miles from land. There was a good bit of swell Lai Fo, on, and a fair six knot breeze. The shallowest part of the reef has 17 water and the swell ground the bottom of bly got fixed in the honey-comb reef. The orew. 28 all told, including the chief mate's wife, Mrs Moore, took to the boats on the morning of the 16th, and and by the time the boats reached there it was too late to return the same day. On the next day the wind increased, the ship rolled continuously and her maste went, and she became a total wreck. The head. man of the village received the shipwrecked people kindly and gave them what he had. After being there four or five days, food running short, the second mate, W. B. Porter, with the boatswain and three men, volunteered to come to Singapore. 325 miles distant. He had his choice of the boats and was well provisioned, and started on the 21st Jan. Nothing has been heard of him here, and it is believed he has been picked up by some passing vessel. On the 26th Capt. Staples determined to come himself with one of the ship's boats, having previously arranged to fit up the Raja's schooner with sails for the rest of the crew. Both vessels reached here safely after a voyage of 44 days, with a fair wind and no casualties. The Robert L. Belknan was owned by Garlton Norwood

THE EGYPTIAN QUESTION. London, January 21.—Great excitement continues in Cairo over the Fakhri Pasha incident and demonstrations in favour of the Khediye are being organised. The Times' Cairo correspondent says there is a pronounced feeling of unsecurity owing to the Anti-British agitation which is fostered by the French and Native papers. The Khedive has conferred on Fakhri Pasha the highest class of the order of Osmanich. London, January 23.—The situation of affairs in Cairo inspires much anxiety. The British officials regard their position as having been sbaken. The British officers believe that the army of occupation

will probably have to be increased. London, January 23.—According to the latest news received from Cuiro it is feared that unless Great Britain takes stringent measures, she will be confronted with a serious Egyptian question.

The Daily News, in a leader, save that t is sure that Lord Cromer would cooperate loyally with Risz Pashe, who has a high character and is above corruption, The Times says that the Khedive is openly credited with the intention to dismiss the English officials, and that there are also rumours to the effect that he is endeavouring to achieve the evacuation of the country by Great Britain, but it. The Times, is unable to believe the Khedive capable of such folly, which could not but result in fighting (sic) the British hold on the Egyptian Government.

THE BILVER QUESTION. New York. January 22 .- President Cleveland, in an interview granted to a member of the Press at Syracuse, expressed the hope that a Bill repealing the Sherman Act would be passed. He declared that if the Democrats were placed in power the repeal of the McKinley Tariff Act would follow.

INCREASE OF PASSAGE BATES. Bombay, January 23.-All steamship companies this morning notify extensive increases in the fares home in consequence of the depreciated ropes.

DIOTS ON THE CONTINENT. Amsterdam, January 20.-Riots due to the activity of the Socialists among the anomployed here have been taking place three days. Bakers were attacked and their shops pillaged. The police who came to their assistance were stoned and thereupon charged with drawn swords, wounding many of the rioters.

London, January 21.-The deaths are announced of Captain Nelson, one of Stanley's officers, and of Lord Saint Os-

THE AUSTRIAN ALCHDURE'S TOUR. Bomban, January 20.— the Archduke left this afternoon at 1.30 by special train for Hyderabad. The Viceregal saloon car was placed at the disposal of the Prince. The departure was private, but crowds of spectators assembled in the vicinity of the station and many persons on the platform." Bombay, January 23 .- The Archduke

Ferdinand arrived at Tandur for a shikar at noon on Saturday. He was met by Nawab Vikar ul Umra, representing the Nizam, Major Neville and other officials. The camp was pitched about air miles from Taudur, where good sport was expected. Everything possible had been done to ansure a successful expedition and the camp possessed every comfort for His Highness and party. The camp will be struck on Tuesday morning, and the Archduke will proceed to Hyderabad, a distance of about
